

Scottish Solar Energy Group Membership Form 2019

The Scottish Solar Energy Group (SSEG) promotes the use of solar in Scotland, as a means of reducing national reliance upon fossil based fuels whilst enhancing the health, comfort and safety within internal working and living environments.

Membership is open to all with an interest in solar energy. Applications are especially welcome from teachers, researchers, building and services design professionals, component manufacturers, system suppliers and students.

SSEG has an exciting programme of forthcoming events, site visits and seminars for 2019. We value the support of our existing members and welcome new members to join us at future events. See our [website](#) for more information.
